PROFESSIONAL SUMMARY

Security investigations and incident response leader with 21 years across the DOD, Intelligence Community, and U.S. Special Operations. Directed digital and biometric forensics operations and intelligence-driven threat hunting, enforcing chain-of-custody and evidentiary integrity. Delivered root cause analyses and executive risk briefings across nation-state and counterterrorism environments, and currently leading incident response, escalation, and compliance operations for a 7,000+ person classified facility. Translates complex technical and operational findings into clear, actionable outcomes for audiences ranging from field teams to C-suite executives and senior government stakeholders. Active TS/SCI clearance.

LANGUAGES & TECHNOLOGIES

- **Investigations & Forensics:** digital & biometric forensics, chain-of-custody & evidentiary integrity, root cause analysis, incident response & escalation management, vulnerability assessment
- **Security Operations & Compliance:** continuous monitoring, security audits & inspection readiness, NIST & DOE Order compliance, classification & information security policy enforcement
- **Data, Query & Visualization:** SQL (query writing, PeopleSoft ERP), Tableau (data visualization & reporting), Java, C# (application development fundamentals, coursework)
- **Certifications:** CompTIA Security+ · GIAC Security Essentials (GSEC) · GIAC Foundational Cybersecurity Technologies (GFACT) · GIAC Open-Source Intelligence (GOSI, expected November 2026) · Six Sigma Green Belt (DFSS)

PROFESSIONAL EXPERIENCE

Classification Security Manager — Information Security

Honeywell — Federal Manufacturing & Technology | Kansas City, MO | February 2026 – Present

- Lead an 8-person security team across Kansas City, MO, and New Mexico, directing incident response and escalation for a 7,000+ person classified facility. Resolved 23 security incidents and led 8 vendor audits through continuous monitoring and inspection-readiness.
- Serve on the Digital Transformation project team, ensuring classified data migrating to a cloud-based PeopleSoft ERP system meets DOE Order and NIST compliance requirements. Author weekly SQL queries against ERP data to produce Tableau reporting for leadership.
- Build custom Copilot agents that ingest new data and auto-generate recurring compliance and status reports. Apply structured prompting techniques to summarize and analyze large data sets, reducing manual reporting time.

Lead Program Manager, Global Security

Honeywell — Federal Manufacturing & Technology (DOE Field Intelligence Element) | Kansas City, MO | February 2024 – February 2026

- Grew program value from \$4.5M to \$9.5M within FY25 (111% increase), ranking in the top 10% of all Lead Program Managers across Global Security. Projected continued growth to \$12M in FY26.
- Served as principal liaison to government and industry stakeholders across a \$9.5M+ portfolio, aligning program objectives and compliance priorities across cross-functional engineering and security teams.
- Operate within Global Security, Honeywell's DOE Field Intelligence Element, advancing nonproliferation, counterproliferation, and supply chain assurance for national security programs.
- Translate customer requirements into technical specifications across software, computer, electrical, and mechanical engineering disciplines.

Department Head — Senior Operations Manager

USSOCOM, 10th Special Forces Group | Colorado Springs, CO | 2018 – 2024

- Directed a 65-person intelligence detachment and IT department spanning IT systems, secure communications, and multi-domain intelligence operations.
- Delivered root cause analyses and risk briefings to executive leadership. Directed a \$2.5M multinational exercise with Ukrainian forces spanning planning, logistics, and interagency coordination.
- Selected for promotion to Sergeant Major, a distinction achieved by fewer than 1% of the Army, for sustained excellence leading a 167-member team supporting globally deployed Special Forces units in high-risk environments.

Senior Operations Manager — Security Specialist

USSOCOM | Various Locations – Europe | 2013 – 2018

- Directed an embedded digital and biometric forensics element within a 53-person joint, interagency crisis response task force maintaining a 6-hour deployment readiness posture. Enforced chain-of-custody and evidentiary integrity protocols across 6 joint training exercises, coordinating with the U.S. Secret Service and first responders during high-stakes events.
- Mentored the crisis response task force through a continuous threat-informed training cycle, identifying emerging threats, briefing and educating the team, and conducting hands-on training to close capability gaps in adversary tradecraft ahead of real-world operations.
- Advised C-suite executives on counterterrorism partner alignment and DoS interagency objectives in Israel, Bosnia, and Ukraine, delivering attribution-informed threat assessments that shaped high-stakes decisions.
- Orchestrated four multimillion-dollar joint, interagency, and multinational exercises. Rated top-performing program manager among 18 peers for leadership and execution.

ADDITIONAL EXPERIENCE

All-Source Intelligence Analyst — U.S. Army, USSOCOM

- Hunted threat actors by fusing intelligence across multiple disciplines and applying the intelligence cycle of planning, collection, analysis, and dissemination to identify, track, and target adversary networks.
- Built biometric and fingerprint-based intelligence networks, collaborating with law enforcement to strengthen regional security posture and incident response.

Information Technology Specialist / IT Project Manager — U.S. Army, USSOCOM

- Managed critical computer, network, and remote communications systems, including RF and satellite technologies, across global operations. Led BGAN implementation and delivered security training on vulnerability assessment and IT protocol enforcement.

EDUCATION

M.S., Computer Information Systems — Colorado State University

Graduate Certificates: Business Intelligence · Business Administration · Business Application Development — Colorado State University

B.S., Information Technology, Cybersecurity focus — Regis University — Summa Cum Laude

B.A., Leadership & Workforce Development — U.S. Army Command and General Staff College

ACCOMPLISHMENTS & AWARDS

Bronze Star Medal (Iraq) · Meritorious Service Medal (European Command) · U.S. Army Green Beret (SFQC) · Recognized by U.S. Secret Service & VP Biden — G20 Summit · Special Forces Intelligence Course · Counterterrorism Crisis Response Force
